Nelda,

I wonder if you can please log this is as a FOIA request. We have had some further discussions with Ms. Eaton to clarify the scope of her request, and it now appears, based on those discussions, that she wants copies of all of the references in the Evaluation Report for the United Nuclear site (179 documents), as well as the references listed in the site profile document for this site (8 documents). Thanks.

Could you please see the request from Clarissa Eaton below. I responded to her and told her I would pass her request on for the documents.

Thanks,
Laurie

Dear Laurie,

I was wondering if I could get my copies of the recent, alleged data capture, and all files, that NIOSH is using to make their determination on the site that is relevant to the special exposure cohort I have filed.

Your response will be greatly appreciated.

Thank You

Clarissa Eaton
