Dear Mr. Lawyer:

1. Please add the depleted uranium as shielding materials for the generators listed above.
 - a. Depleted Uranium Metal 85 kg (27.3 kg per generator)

2. "Transport radiation shields" - surface dose rates

Radionuclide	Maximum activity	Container type	Surface radiation levels (mRem/hr)	30 cm radiation levels (mRem/hr)
F-18 FDG	500 mCi	Syringe	2 rem/hr	100 mrem/hr
Tc-99 compounds	500 mCi	Syringe *1	< 5 mrem/hr	
Tc-99 compounds	600 mCi	Vial shield *2	< 5 mrem/hr	
Tl-201 compounds	300 mCi	Syringe	< 3 mrem/hr	
Ga-67 compounds	300 mCi	Syringe	< 3 mrem/hr	

Transportation Shipping Bag/Container

Item	Lead shielding	Max activity	Radiation Level
Shipping bag/container	None	As Needed	WI, YII, YIII

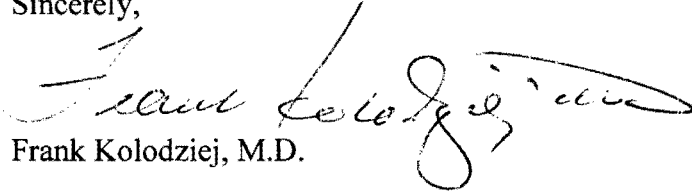

3. This is to confirm that that the owner of International Cyclotron, Inc. and Somascan, Inc. is the same. We also commit that if either license will be transferred to a different owner, then this location will be removed from one of the licenses and that all the Tc-99m generators will be removed and relocated inside the International Cyclotron, Inc. storage area.

NRC/RCM 11-00018-002

We would appreciate the prompt approval of this license amendment. Please fax the amended license to David Rhoe at 787-292-7976.

If you need any further information, please contact David Rhoe at (787) 245-7248.

Sincerely,

A handwritten signature in cursive script, appearing to read "Frank Kolodziej". The signature is fluid and extends to the right with a long, sweeping tail.
