SUBJECT: Response to NRC Request for Additional Information Concerning US Air Force  
Installation Burial Sites, Our Memo, 23 May 2008

The US Air Force Radioisotope Committee (RIC) received a request from the Nuclear Regulatory Commission (NRC), dated 29 February 2008, for additional information regarding McClellan AFB, CA and other US Air Force Installation Burial Sites. Questions 1-3 were answered in a RIC Secretariat memo dated 15 April 2008; Question 4 was answered in a RIC Secretariat memorandum dated 23 May 2008.

As discussed in a teleconference on 16 July 2008 between members of the RIC Secretariat, Mr. Robert Johnson (HQ NRC) and Ms. Rachel Browder (NRC-RIV), it is our understanding that the NRC acknowledges that the Air Force met the original NRC suspense for the request for additional information, and that the NRC and the Air Force will continue to work toward an appropriate response to question 4. The RIC Secretariat, therefore, submits this request to retract our memo dated 23 May 2008.
