SUPPLEMENTARY INFORMATION: The NRC published the draft Agreement in the *FR* for comment once each week for 4 consecutive weeks on May 27, 2009 (74 FR 25283), June 3, 2009 (74 FR 26739), June 10, 2009 (74 FR 27572), and June 17, 2009 (74 FR 28728),

as required by the Act. The comment period ended on June 26, 2009. The Commission received six comment letters – two supporting the Agreement, two opposed, one that supported the rationale of States assuming regulatory authority but not the fee differences that will occur, and one general comment that did not express support or opposition. The comments did not affect the NRC staff's assessment, which finds that the New Jersey Agreement State program is adequate to protect public health and safety and compatible with the NRC's program. The proposed New Jersey Agreement is consistent with Commission policy and thus meets the criteria for an Agreement with the Commission.

After considering the request for an Agreement by the Governor of New Jersey, the supporting documentation submitted with the request for an Agreement, and its interactions with the staff of the New Jersey Department of Environmental Protection, the NRC staff completed an assessment of the New Jersey program. The agency made a copy of the staff assessment available in the NRC's Public Document Room (PDR) and electronically on NRC's Web site. Based on the staff's assessment, the Commission determined on September 2, 2009, that the proposed New Jersey program for control of radiation hazards is adequate to protect public health and safety, and compatible with the Commission's program.

Dated at Rockville, Maryland, this _____ day of _____, 2009.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,
Secretary of the Commission
