

DRAFT OUTLINE COMMENTS

Facility: AN2

First Exam Date: 8/7/09

Written Exam Outline (5/28/2009)		
	Comment	Resolution
1	Revision number on all forms	Fixed
2	Consider adding K/As replaced due to non-applicability to AN2 or unable to write question to next exam's suppressed list	Will do.
3		

Administrative JPM Outline (5/28/2009)		
	Comment	Resolution
1	Renumber A1 – A9	Done
2	A2 – ensure RO's not making TS calls	Revised task to reflect RO duties
3	Revision number on all forms	Fixed
4	Rad Control JPM must be different for RO and SRO. Revise or replace one.	Replaced SRO JPM
5	RO surveillance JPM – is this an RO task?	Yes

Control Room / In-Plant System JPM Outline (5/28/2009)		
	Comment	Resolution
1	Were JPMs used on previous NRC exams randomly selected from last two exams?	No. Since 3 applicants took the 2006 NRC exam, we recommended, and the Chief Examiner agreed, to randomly select JPMs from only the 2008 exam.
2	Renumber S1, S2.... P1, P2	Done
3	For RCP shutdown JPM – ensure clearly defined Task Standard and is this Low Power/Shutdown?	Will do and yes – form updated

Simulator Scenario Outline Comments

(5/28/2009)

Comment		Resolution
1	Scen 1, Event 6 – on last two NRC exams – replace	Replaced with Main Turb trip
2	Scen 1, Event 9 – on last two NRC exams – replace	Replaced with SI pump shaft shear
3	Scen 2, Event 5 – this is a precursor to event 6, not a stand alone event	Events 5 & 6 combined
4	Scen 2 – Turnover – draining containment sump should be worded as directive, not a vague request	Fixed
5	Scen 3, Event 4 – make failure of channel a ramp, not instant failure	Done (30 sec)
