RF: L&R:IB:NB (29-6033-1)

Dear Mr. Bassin:

This letter is to confirm our telephone conversation of January 8, 1960, in which I stated that Technical Operations had over-shipped to us on January 8, 1960 a cobalt-60 sealed source A-424 of 52.5 curies instead of 50 curies as noted in our By-Product license #29-6033-1.

In view of this over-shipment, we would like to amend item 8 of our By-Product license to allow a maximum amount of radioactivity which we may possess at any one time to 56 curies of cobalt-60 (sealed source).

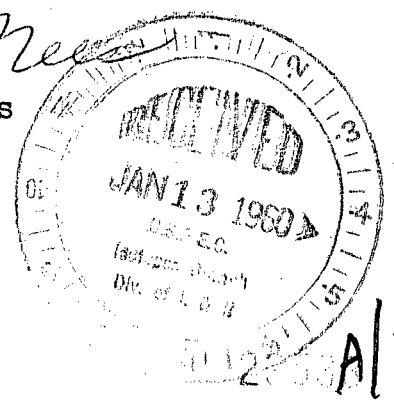

Thank you for your immediate attention to this amendment in our license #29-6033-1.

Very truly yours,
NATIONAL LEAD COMPANY
