Rf: L&R:IB:NB(29-6033-1)

Dear Mr. Bassin:

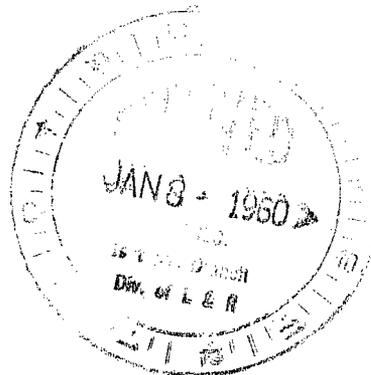

This letter is to confirm our telephone conversation of today in which I stated we are changing the location of our Standardization Laboratory to another building within the Perth Amboy plant.

Please find enclosed a map of our plant. The Standardization Laboratory will be moved to Building # 20, and designated as AA, whereas previously this Laboratory was to be situated in the Acid Recovery Area, Building # 33, and designated as A. This new laboratory location, AA, is in an isolated area, free from working personnel and will be much easier to control from a radiological standpoint.

Thank you for your immediate attention to our application for a by-products license and the issuance of license # 29-6033-1.

Very truly yours,

G. L. Stukenbroeker
