

License Condition for Increased Controls

The licensee will comply with the requirements for "Increased Controls for Licensees that Possess Sources Containing Radioactive Material Quantities of Concern" (IC) (Accession No. ML053130364) published in the Federal Register (FR) on December 1, 2005 (70 FR 72128) as Attachment B to EA-05-090, "Order Imposing Increased Controls," (Accession No. ML053130218)". The licensee will complete implementation of the IC requirements by the first day that radionuclides specified in Table 1, Radionuclides of Concern, (Accession No. ML053130250) of the IC are possessed at or above the limits specified in the table. Notwithstanding any provisions of the State regulations to the contrary, all measures implemented or actions taken in response to the IC requirements shall be maintained until the State orders otherwise in a revised license condition, or until the State explicitly modifies its regulations to reflect increased controls, and states in modifying its regulations that the revisions are to supercede Order EA-05-090.
