King of Prussia, PA 19406

Dear License Reviewer:

Please amend our Radioactive Materials License, **NRC # 07-14850-01, Bayhealth Medical Center – Kent General Hospital**, 640 South State Street, Dover, DE 19901, to reflect the following:

- We wish to combine the license **NRC # 07-14850-01, Bayhealth Medical Center – Kent General Hospital** (Transferee), located at 640 South State Street, Dover, DE 19901 with **NRC # 07-14900-01, Bayhealth Medical Center – Milford Memorial Hospital** (Transferor), 21 West Clarke Avenue, Milford, DE, 19963. Currently the two licenses represent the same entity at two locations. We will maintain License No. NRC # 07-14850-01 as the main address and the 21 West Clarke Avenue address will be listed as a campus under the # 07-14850-01 license.
 - Kent General Hospital and Milford Memorial Hospital are part of one parent company under the name Bayhealth Medical Center. Presently, Kent General Hospital is named on the license as Bayhealth Medical Center – Kent General Hospital and Milford Memorial Hospital is named on the license as Bayhealth Medical Center – Milford Memorial Hospital.
 - There will be no changes in support personnel or duties at either facility with regard to the licensed program. Our authorized users (see complete list below) and others identified as responsible for radiation safety or use of licensed material will continue to assume responsibility for the safe use of radioactive material. However, we do wish to name a new Radiation Safety Officer at this time (see below).
 - All current activities (organization, location, facilities, and equipment) that fall under the radioactive materials license will remain unchanged. There is and will

03007565

RECEIVED
REGION I

- continue to be collaboration to coordinate and duplicate procedures between the facilities.
 - All licensed areas of use at both facilities will remain intact and consistent with regard to survey and wipe areas and quality control. All sources are remaining in place or in storage as they are currently used by the Transferee and Transferor. Calibrations, leak tests, inventories, etc. have been carried out at the frequencies established in the Code of Federal Regulations.
 - There will be no decommissioning of either facility. Both facilities are owned by the same entity. Neither facility will be closing or stating disposition of sources.
 - All license conditions will be maintained at both facilities and will fall under the jurisdiction of the Transferee.
 - All byproduct sources, forms, and possession limits, as identified in license items #6, #7, and #8 remain the same as listed on license 07-14850-01. One (1) addition to items #6, #7, and #8 on license 07-14850-01 is source 'E' identified on license 07-14900-01 as a Radium 226 sealed source of 15.7 uCi. This source is currently stored at the 21 West Clarke Avenue address in the Nuclear Medicine Storage area within the secure Hot Lab. The source will remain in storage at that address, with Dr. Begley listed as user.
- The following is a list of Authorized Users we wish to keep on the license for all Material and Uses as they are currently listed:
 - Currently listed on license # 07-14850-01
 - Victoria Kong, M.D.
 - Martin Begley, M.D.
 - Raphael Caccese, M.D.
 - Thomas Vaughan, M.D.
 - Michael Polise, D.O.
 - Ravi Kasat, M.D.
 - Michael Amygdalos, M.D.
 - John Lahaniatis, M.D. (Dr. Lahaniatis remains as user of the Yt-90 for instrument calibration)
 - Delete Vibhu Kapoor, M.D.
 - Currently listed on license # 07-14900-01
 - Jeffrey Jackerson, D.O.
 - Delete Johnathan Patterson, M.D.
 - Walter L. Robinson was and now Martin Begley is the new Radiation Safety Officer (RSO) at both facilities and should be listed as such on both licenses.

If you have any questions or need any further information, please contact our current Radiation Safety Officer, Walter Robinson, of Walter Robinson & Associates. He can be reached at 717-940-5493, or by voicemail at 1-800-446-7622 extension #1.

Sincerely,

Terry M. Murphy, FACHE
President and Chief Executive Officer

This is to acknowledge the receipt of your letter/application dated

2/20/2010, and to inform you that the initial processing which includes an administrative review has been performed.

AMEND. 07-14850-01 / TEAM. 07-14900-01
There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

Please provide to this office within 30 days of your receipt of this card

A copy of your action has been forwarded to our License Fee & Accounts Receivable Branch, who will contact you separately if there is a fee issue involved.

Your action has been assigned Mail Control Number 144493.
When calling to inquire about this action, please refer to this control number.
