**Subject:** More MOX q's

Dave,

Here are two additional questions for MOX:

### Section 1 – Organization

1. Please clarify what is meant by the term *MFFF regulatory application* in Section 1.2.2 of the MPQAP, “The Regulatory Compliance Manager provides planning and execution of compliance activities, including interfaces with regulatory agencies, and managing the preparation and maintenance of the MFFF license application. This function is responsible for regulatory compliance and the direct interface with the U.S. Nuclear Regulatory Commission (NRC) and the coordination required between the U.S. Department of Energy (DOE) and the NRC for the MFFF regulatory application.
2. Please clarify why there is no line of reporting access shown between the QA Manager and the President of MOX Services in Figures 1-1 and 1-2.

I don't want to give you headaches with so many emails with additional questions, but as we write the SER we are able to do a more thorough look at the QAPD and identify additional questions. I figured it would be best to pass these along to MOX as soon as we identify them to give MOX as much time as possible to formulate their answers, but if you would prefer that we hold these questions or adopt a different system for adding them, please let me know.

Thanks a lot,  
Sabrina
