PAGE 2 OF 2

DEVICE TYPE: Industrial Radiography Source Changer

DESCRIPTION:

This source changer is designed for use only with the Gulf Nuclear Models (b)(2) (b)(2) sources and the sources for which these sources are replacements. The shielding consists of about 26 pounds of uranium which is contained in a heavy aluminum casing. The exchanger is normally shipped in a DOT-6C shipping drum which has a Radioactive III label. The manufacturer supplies operating instructions.
