**SUBJECT: GRAND GULF NUCLEAR STATION, UNIT 1 - CLOSEOUT OF BULLETIN
2007-01, "SECURITY OFFICER ATTENTIVENESS" (TAC NO. MD7604)**

Dear Sir or Madam:

On December 12, 2007, the U.S. Nuclear Regulatory Commission (NRC) issued Bulletin 2007-01, "Security Officer Attentiveness" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML073400150).

Entergy Operations, Inc. (the licensee) provided a response, dated February 7, 2008 (ADAMS Accession No. ML080430086), to Bulletin 2007-01. The NRC staff reviewed the licensee's response for Grand Gulf Nuclear Station, Unit 1 (GGNS) and identified a need for additional information. The NRC staff issued a Request for Additional Information (RAI) to the licensee on July 9, 2008 (ADAMS Accession No. ML081830009). The licensee provided a response to the RAI on August 13, 2008 (ADAMS Accession No. ML082320043), which included detailed descriptions of the administrative and managerial controls to deter and address inattentiveness and complicity among licensee security personnel at GGNS. Due to the sensitivity of the subject matter, some responses may contain Security-Related Information and may not be publicly available.

The NRC staff has reviewed the submitted information and has concluded that the response to Bulletin 2007-01 and the subsequent RAI is adequate for GGNS. The bases for the NRC's conclusion have been documented in a memorandum, "Security Bulletin 2007-01, Security Officer Attentiveness: Summary Report" (ADAMS Accession No. ML093440311). Based on this review, your response to the Bulletin 2007-01 is considered closed and no further action is requested of you at this time.

If you have any questions regarding this letter, please feel free to contact me at (301) 415-2296.

Sincerely,

A handwritten signature in black ink, appearing to read "Carl F. Lyon", is written over the typed name.

Carl F. Lyon, Project Manager
