SUBJECT: PERRY NUCLEAR POWER PLANT, UNIT NO. 1 - CLOSEOUT OF BULLETIN
2007-01 "SECURITY OFFICER ATTENTIVENESS" (TAC NO. MD7635)

Dear Mr. Bezilla:

On December 12, 2007, the U.S. Nuclear Regulatory Commission (NRC) issued Bulletin 2007-01, "Security Officer Attentiveness" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML073400150).

FirstEnergy Nuclear Operating Company (the licensee) provided a response, dated February 11, 2008 (ADAMS Package Accession No. ML080510567), to Bulletin 2007-01. The NRC staff reviewed the licensee response for Perry Nuclear Power Plant, Unit No. 1 (Perry) and identified a need for additional information. The NRC staff issued a Request for Additional Information (RAI) to the licensee on July 3, 2008 (ADAMS Accession No. ML081820168). The licensee provided a response to the RAI on August 14, 2008 (ADAMS Package Accession No. ML082330467), which included detailed descriptions of the administrative and managerial controls to deter and address inattentiveness and complicity among licensee security personnel at Perry. Due to the sensitivity of the subject matter, some responses may contain Security-Related Information and may not be publicly available.

The NRC staff has reviewed the submitted information and has concluded that the response related to Bulletin 2007-01 and related RAI is adequate for Perry. The bases for the NRC's conclusion have been documented in a memorandum, "Security Bulletin 2007-01, Security Officer Attentiveness: Summary Report" (ADAMS Accession No. ML093440311), dated December 17, 2009. Based on this review, Bulletin 2007-01 will be closed and no further action is required.

If you have any questions regarding this letter, please feel free to contact me at (301) 415-3302.

Sincerely,

Araceli T. Billoch Colón
