

LICENSEE: Various

FACILITY: Various

SUBJECT: SUMMARY OF MARCH 12, 2010, CATEGORY 2 MEETING WITH THE NATIONAL REGULATORY UTILITY GROUP (NRUG), TO DISCUSS VARIOUS REGULATORY ISSUES

On March 12, 2010, a public meeting was held between the U.S. Nuclear Regulatory Commission (NRC), and representatives of the NRUG, at the Bethesda North Marriott and Conference Center, Brookside Room, 5701 Marinelli Road, Rockville, MD. The purpose of the meeting was to discuss various regulatory and licensing topics listed on the agenda.

The NRUG and the staff discussed information on topics including reporting requirements regarding safety system functional failures, industry trends, impacts of new construction, the Reactor Oversight Program, future NRUG meetings, and the status of action items from previous meetings.

Members of the public were not in attendance. Public Meeting Feedback forms were not received.

A list of meeting attendees is attached [ADAMS Accession Number ML100740584].
