Questionnaire

1. a. Are you willing to raise a safety concern if you have one? _____

   b. Are there any conditions under which you would be hesitant to raise a safety concern? _____

   c. If you answered "Yes" to question 1(b) above, does that condition exist here at the Washington, PA Remediation Site? Please explain. _____

2. a. If you wanted to raise a safety issue, how would you do so? _____

   b. Why would you select this avenue for raising a safety issue? _____

   c. Are you aware of other avenues available to you for raising safety issues? If yes, please describe. _____

3. Are you aware of situations where an employee or contractor may have been hesitant to raise safety concerns, internally or externally? If you answered "Yes", please explain the situation(s) and why you believe the employee or contractor may have been hesitant to raise a safety concern. _____

4. Are you aware of any actions taken by your management to prevent and detect retaliation against employees or contractors for reporting safety concerns? _____

   a. Have management's actions been effective? _____

   b. Has management been consistent in addressing retaliation issues in order to avoid those actions from causing a negative or "chilling" effect on other employees' or contractors' willingness to report safety concerns? _____

5. Would you say that your management is supportive of the NRC's Safety Conscious Work Environment (SCWE) policy?_____

a. If you answered "Yes", please explain how that support is demonstrated.

_____
_____
_____
_____

b. If you answered "No", please describe what has lead you to believe that they are not supportive of the NRC's SCWE policy.

_____
_____
_____
_____
