Ralph is correct . . . I was mistaken . . . the resident was called at about 5:30.

It's correct that all of the notifications were voluntary. A formal notification was made to NRC (an event report under 50.72) because State officials were notified.

Subject: RE: TMI-1 radiation event

Diane,

Ralph DeSantis at Exelon Nuclear just told me their log shows the resident inspector was notified about the radiation event 1 hour and 15 minutes after it occurred, not 3 hours afterward as you'd told me. Could I please find out why the discrepancy?

He also says the event did not exceed thresholds for reporting to NRC and all their notifications were voluntary. Can you confirm that?

Thanks,
Steve
