Dear Anthony,

Upon receipt of your letter dated January 24, 2002 I have reviewed all the documents that pertain to our current device registration certificate number NR-0668-D-101-E. I have concluded that there in fact have been no changes made any of our various models of smoke detectors that would apply to the radioactive sources that are used in the manufacture of these detectors either by our manufacturing procedures here in Ashland, or by Nohmi Bosai in Japan since the last registration certificate amendment in 1992.

I hope that this will help you with the completion of our recent license renewal application.

Sincerely,
William Sawyer R.S.O.
