

Fenwal Incorporated
ATTN: Mr. Robert A. MacNutt
400 Main Street
Ashland, MA 01721

SEP 26 1991

Dear Mr. MacNutt:

Enclosed please find NRC License No. 20-15285-03E, replacing NRC License No. 20-15285-02E and continuing your authorization to distribute smoke detection devices to persons exempt from licensing. Please note that we have included and referenced all letters and information contained in your previous license and that the license expiration date is September 30, 1992.

It was noted during our review of your request that your license references information submitted in the early 1970's, that your license file has become disjointed and confusing, and that much of the information contained therein is not relevant to your current distribution program or products. We also noted that your September 9, 1991, application and your previous renewal application only provided information concerning your possession and use of licensed materials rather than information about the products you distribute. Also, in a recent conversation with Mr. Bruce Carrico of this office, you indicated that several of the smoke detector models listed on your license are obsolete and are no longer being distributed.

In view of these circumstances, we have issued your new license for only one year. When renewing the license, you will be expected to submit a complete and concise application package concerning your current distribution activities and smoke detector models, without referencing previously submitted information. The information to be included is outlined in Sections 32.26, 32.27, and 32.29, 10 CFR Part 32. Your application package should be submitted for review 90 days before the expiration date. Please be aware that information concerning your possession and use of licensed materials should not be included in your renewal package for the distribution license.

As you are aware, 10 CFR 32.29(c) requires that product transfer reports be submitted upon renewal or termination of a license. We understand that you will be submitting these reports within the next 30 days.

If you have any questions, please feel free to contact me at (301) 492-0686.

Sincerely,

Susan L. Greene
