I just received a call regarding this from the State. I informed Nimitz and Urban.

No further action is needed at this point, just FYI.

Subject: TMI Contractor Asking State for independent monitoring

John FYI, Rich Janati **will be calling you** regarding a TMI contractor that was contaminated last week (11/21/09). The contractor called the State (Rich) and asked if they provide independent monitoring (i.e.; Whole Body Counts). Rich told him the State does not and refer the individual to the NRC.

Rich wanted to give us a heads-up in case the person does come to the NRC.
