John/Dave/Javier

Per Javier's request I created an inspection activity and associated it with a standalone IR # for the TMI Airborne Event. The inspection dates are 11/22/2009-1/31/2010. The report number is 05000289/2010007. I created an 71153 BI activity and BID, BIP activities and assigned John White, Dave, and Javier to this activity. John White was designated as the lead since he will be signing out the report. We can add/subtract folks from these activities as appropriate.
