Dear Mr. DeLaBarre:

Enclosed is a letter dated March 4, 2010, from QSA Global, Inc., requesting an amendment to license PCB11b.05, which authorized the export of Category 2 quantities of radioactive byproduct materials (Iridium-192, Cobalt-60, Selenium-75, Cesium-137 and Americium-241/Be) to various countries for use in industrial radiography and petroleum exploration well logging service operations. Amendment No. 06 (PCB11b.06) is requesting authorization to add the company Bechtel International Inc., located in Soyo, Angola in support of a new inquiry.

Since Angola is on the restricted list (10 CFR 110.29), before taking action on this new request, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended.

Sincerely,

/RA/
