

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

March 25, 2010

Mr. Thomas D. Gatlin  
Vice President, Nuclear Operations  
South Carolina Electric & Gas Company  
Virgil C. Summer Nuclear Station  
Post Office Box 88  
Jenkinsville, SC 29065

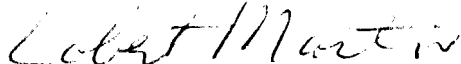

SUBJECT: VIRGIL C. SUMMER NUCLEAR STATION, UNIT NO. 1 – REQUEST FOR  
ADDITIONAL INFORMATION – GENERIC LETTER 2008-01  
(TAC NO. MD7883)

Dear Mr. Gatlin:

By letter dated October 13, 2008 (Agencywide Document Access and Management System Accession No. ML082890534), South Carolina Electric and Gas Company (SCE&G), submitted information in response to Generic Letter (GL) 2008-01 "Managing Gas Accumulation in Emergency Core Cooling, Decay Heat Removal, and Containment Spray Systems," for Virgil C. Summer Nuclear Power Station.

We are requesting additional information regarding whether SCE&G has acceptably demonstrated "that the subject systems are in compliance with the current licensing and design bases and applicable regulatory requirements, and that suitable design, operational, and testing control measures are in place for maintaining this compliance" as stated in GL 2008-01. Specifically, briefly discuss, consistent with Section 3.7 of the following reference, the training that is considered to be a necessary part of applying procedures and other activities when addressing the issues identified in the GL. The reference is the letter from William H. Ruland, "Preliminary Assessment of Responses to Generic Letter 2008-01," "Managing Gas Accumulation in Emergency Core Cooling, Decay Heat Removal, and Containment Spray Systems," and "Future NRC Staff Review Plans," to James H. Riley, Nuclear Energy Institute, ML091390637, May 28, 2009.

Sincerely,

  
Robert E. Martin, Senior Project Manager  
Plant Licensing Branch II-1  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation
