Don,

Cancel that last email request. I wasn't aware of the agreements made regarding access to the reading file.

Thanks,

Mike

**Subject:** FW: 2.4 Hydrology Calcs and References

Don,

Our reviewers are having a little trouble copying the files to review (one of the reviewers is on travel) - is it possible to remove the copy protect feature to allow the reviewers to download/copy the files?

If this is becoming too much work, perhaps we should just wait for the cd's - not ideal given the timeline to the public conference call, but might be more a efficient use of time.

Let me know.

Thanks,

Mike

Mike,

Brennan is on travel this week and while trying to copy the files to a local hard drive he was not able to. Could you check with Luminant to see if they could remove the copy protect features to provide us access with copy privileges?

Thanks,  
Nebiyu

The calcs discussed in last week's conference call are now available via Luminant's reading room. They have been officially submitted, but while we wait for them to get through document processing, they are available through Luminant's reading room for your preliminary review.

Thanks,

Mike

**Subject:** 2.4 Hydrology Calcs and References

I have added the calcs and references to the reading room under the heading "2.4 Hydrology." I loaded a couple on the flight home (first time I ever tried that – slow but it worked), a few last night after I got home, a few this morning before I left for work. I couldn't load the references until I got to work because I didn't have those files on my hard drive. I am still cleaning up the file names but they are all there.
