Subject: NNSA Response to Mr. Benner's March 1, 2010 letter Subject: Request for Additional Information for Review of the Model No. PAT-1 Packaging, Docket No. 71-0361

Chris,

The purpose of this e-mail is to inform NRC that NNSA will not be able to make the April 5, 2010, deadline for the submission of responses to the requests for additional information contained in the subject letter. As you know, NRC and NNSA are in the process of holding telephone and videoconferences to facility the development of responses which will address the requests correctly and fully. Once we have completed these teleconferences and videoconferences we will be in a better position to determine the date when NNSA will be able to provide all of the necessary responses. I will ensure that you are provided the date of our planned response as soon as we are in a position to more accurately determine that date.

Thank you for your assistance and your patience.

R/Max
