SUBJECT: SAN ONOFRE NUCLEAR GENERATING STATION, UNITS 2 AND 3 -
CLOSEOUT OF BULLETIN 2007-01 "SECURITY OFFICER ATTENTIVENESS"
(TAC NOS. MD7649 AND MD7650)

Dear Mr. Ridenoure:

On December 12, 2007, the U.S. Nuclear Regulatory Commission (NRC) issued Bulletin 2007-01, "Security Officer Attentiveness" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML073400150).

Southern California Edison Company (the licensee) provided a response dated February 11, 2008, (ADAMS Accession No. ML080440414) to Bulletin 2007-01. The NRC staff reviewed the licensee's response for the San Onofre Nuclear Generating Station (SONGS), Units 2 and 3, and identified a need for additional information. The NRC staff issued a Request for Additional Information (RAI) to the licensee on July 10, 2008 (ADAMS Accession No. ML081850028). The licensee provided a response to the RAI on August 14, 2008 (ADAMS Accession No. ML082320425), which included detailed descriptions of the administrative and managerial controls to deter and address inattentiveness and complicity among licensee security personnel at SONGS. Due to the sensitivity of the subject matter, some responses may contain Security-Related Information and may not be publicly available.

The NRC staff has reviewed the submitted information and has concluded that the response to Bulletin 2007-01 and the subsequent RAI is adequate for SONGS. The bases for the NRC's conclusion have been documented in a memorandum, "Security Bulletin 2007-01, Security Officer Attentiveness: Summary Report" (ADAMS Accession No. ML093440311). Based on this review, Bulletin 2007-01 will be closed and no further action is required.
