SUBJECT: VERMONT YANKEE NUCLEAR POWER STATION - CLOSEOUT OF BULLETIN 2007-01 "SECURITY OFFICER ATTENTIVENESS" (TAC NO. MD7664)

Dear Sir or Madam:

On December 12, 2007, the U.S. Nuclear Regulatory Commission (NRC) issued Bulletin 2007-01, "Security Officer Attentiveness" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML073400150).

Vermont Yankee Nuclear Power Corporation (the licensee) provided a response, dated February 11, 2008 (ADAMS Accession No. ML080500269), to Bulletin 2007-01. The NRC staff reviewed the licensee's response for Vermont Yankee Nuclear Power Station (VYNPS), and identified a need for additional information. The NRC staff issued a Request for Additional Information (RAI) to the licensee on July 2, 2008 (ADAMS Accession No. ML081790347). The licensee provided a response to the RAI on August 13, 2008 (ADAMS Accession No. ML082321276), which included detailed descriptions of the administrative and managerial controls to deter and address inattentiveness and complicity among licensee security personnel at VYNPS. Due to the sensitivity of the subject matter, some responses may contain Security-Related Information and may not be publicly available.

The NRC staff has reviewed the submitted information and has concluded that the response to Bulletin 2007-01 and the subsequent RAI is adequate for VYNPS. The bases for the NRC's conclusion have been documented in a memorandum, "Security Bulletin 2007-01, Security Officer Attentiveness: Summary Report" (ADAMS Accession No. ML093440311). Based on this review, Bulletin 2007-01 will be closed and no further action is required.

If you have any questions regarding this letter, please feel free to contact me at (301) 415-4125.

Sincerely,

James Kim
