Great. I have not provided Uranium One with an exact time because I was still trying to see if I could set up additional meetings on that day. I told Uranium One that I'd give them a definitive time by next Tuesday AM, which was fine since the staff would be at the site anyway. Since you and Jon will be along for the site visit we can go ahead and set a definite time now if you like. I will be driving in from Rawlins, so 9:00 is probably the earliest time we would want to arrive at the site. I know the Uranium One staff will be coming from 2hrs away.

Johari:

I have a meeting room scheduled for here at the DEQ office on Thursday morning 8/13 at 9 AM.

Also, Jon Kaminsky (BLM) and I would like to meet with you at JAB/Antelope on Wednesday, as I have yet to visit the site and it has been 18 months since Jon has been out there. Can you tell me what time you all plan to get out there, and we will plan to meet up with you.

Thanks.

Amy

Hi Amy,

It looks like we're probably going to have to fly from Denver, so a morning meeting would work best as we would likely drive to Denver on Thursday afternoon for a Friday morning flight. Please let me know if this will work for you and Jon.

Thanks,

Johari A. Moore

I spoke with Jon Kaminsky with BLM and he was OK with having a combined meeting... I have a call into him to check on best times for Thursday, August 13th

Hotel options in Lander:

The Inn – Best Western 307-332-2847  
The Pronghorn Lodge 307-332-3940

Ok. From my standpoint, anyone interested from your office is welcome (assuming you have space). Thursday is looking like the best day. Do you have a preference for a morning vs. afternoon meeting? I will likely drive to Lander from the site on Wednesday afternoon and I currently have not lined up any other meetings for Thursday. Also, do you have a hotel recommendation in Lander?

Thanks,

Johari:

We do have other Divisions within our office, however regarding Air Quality – the permitting staff are in the Cheyenne office, and Lander has the inspection staff. Though I imagine the inspection supervisors could field any questions regarding AQD issues.

Thank you Amy. I'm assuming there may be other interested DEQ reviewers (air quality, etc.). Would you be able to coordinate their attendance? I'm not sure if you're all in the same office building...

Johari:

Attached are the DEQ's Completeness Review comments from 12/31/08 for the JAB/Antelope proposed ISL mine. As I mentioned this review also includes a substantial number of technical comments.

We can coordinate your meeting the week of August 10<sup>th</sup> to include both the DEQ and BLM, just let either Jon or I know what day works best for you.

Also, FYI – we have not had any real communication with Uranium One since our comments were issued last December. My understanding is that they have been focusing their efforts on the Moore Ranch project.
