Hi Johari, Either way is fine.

Thank you, Mary. During my meeting last week with Kent Schmidlin as well as others from Wyoming Game and Fish, I learned about your various databases. Is email an appropriate method to contact you to request data and/or to request instructions for locating data online or do you prefer standard mail?

Dear Ms. Kock, Ms. Moore & Mr. Shroff,

In recent days I have received mailed correspondence regarding Uranium One America's proposed Moore Ranch, Antelope and JAB projects (Dockets 040-09073 and 040-09079). Such correspondence should be routed through our statewide Habitat Protection Office in Cheyenne at the address below. That office determines what WGF personnel are required to review and address such inquires and routes the requests accordingly. I do not typically become involved in site specific projects. Local WGF staff are largely responsible for such inquiries (as determined by the Habitat Protection staff). I have forwarded your letters to that office for their dispensation.

Regards,
