This is just a brief summary of the work at Moore. Information in this summary may be presented in the ER & TR, but not necessarily in this form.

Other questions, what is the reasoning for the 12.11.09 to 2.1.10 comment period for the Draft SEIS?
Who is responsible for getting the notice in the FR? NRC or EPA.

Thanks. Just want to verify that this was not a part of the ER or TR.

Behram, as you can see there had been an extensive amount of work conducted in the area in response to CBNG development. Hope this helps.
