SUBJECT: CHANGES TO THE PHYSICAL SECURITY PLAN FOR THE NATIONAL ENRICHMENT FACILITY (LES-00029-NRC) (TAC NO. L32591)

Dear Mr. Sanford:

On February 5, 2010 Louisiana Energy Services (LES) submitted Revision 7 of the Physical Security Plan (PSP) to the U.S. Nuclear Regulatory Commission (NRC) in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 70.32(e).

Revision 7 of the PSP reinstated the license amendment revision requested in Revision 6a of the PSP, submitted by letter on July 16, 2009. The submittal satisfies the requirements of license condition 29.c. Revision 7 of the PSP also contained numerous administrative changes. The staff reviewed the PSP to ensure that it addresses current regulations. A Safety Evaluation Report is enclosed of this review, along with Amendment 30 to your license. Based on the review, the proposed revisions are acceptable and license condition 10.d. has been modified to reflect the update to the PSP.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR Section 51.22(c)(12).

This terminates our efforts on this licensing action and this TAC has been **closed**.
