030-36973/10-06(DNMS) (FORM 591M Part 1) —SIOUX FALLS, SOUTH
DAKOTA AND HIGHLAND, INDIANA FACILITIES

Dear Mr. Coffey:

On February 16 and 26, 2010, the U.S. Nuclear Regulatory Commission (NRC) conducted routine inspections at your Sioux Falls, South Dakota and Highland, Indiana, facilities respectively. The inspection results were discussed with Willie Regits, Radiation Safety Officer, of your staff during a final telephonic exit briefing conducted on March 2, 2010.

These inspections were an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, independent measurements, and observation of activities in progress. Within the scope of these inspections no violations of NRC requirements were identified; therefore, no response to this letter or the enclosed NRC Form 591Ms is required.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
