NOTIFICATION OF NRC INSPECTION AND REQUEST FOR INFORMATION

Dear Mr. Costanzo:

On May 10, 2010, the NRC will begin a supplemental inspection at the Duane Arnold Energy Center. This on-site inspection is scheduled to be performed May 10 - 13, 2010.

In order to minimize the impact to your on-site resources and to ensure a productive inspection for both sides, we have enclosed a request for documents needed for this inspection. The documents identified are those the inspector will need upon arrival at the site. It is important that all of these documents are up to date and complete in order to minimize the number of additional documents requested during the on-site portion of the inspection.

We have discussed the schedule for these inspection activities with your staff and understand that our regulatory contact for this inspection will be Mr. J. Schwertfeger of your organization. If there are any questions about this inspection or the material requested, please contact the inspector, Mr. T. Eck at (630) 829-9845.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
