Subject: Links to NRC's draft supplemental EISs for the Moore Ranch, Nichols Ranch, and Lost Creek in-situ uranium recovery projects

Dear Mary,

I was given your name by Don McKenzie, and he asked that I send you the internet links to the three draft supplemental EISs that the Nuclear Regulatory Commission (NRC) staff just published for public comment. These documents were prepared for the Moore Ranch, Nichols Ranch, and Lost Creek in-situ uranium recovery projects. The draft SEISs can be found at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1910/>

This link takes you to the "*Generic Environmental Impact Statement for In-Situ Leach Uranium Milling Facilities*" (NUREG-1910). These three supplemental EISs incorporate by reference discussions and impact conclusions from NUREG-1910.

The public comment period for these three documents closes on February 1, 2010.

If you have any questions about the three documents, please contact me either by phone or email.

Thank you,
Jim
