Lisle, Illinois 60532-4352

Mr. Mullauer:

This letter is a request for an amendment to the Radioactive Materials License 21-00265-06 of The Dow Chemical Company, Midland, Michigan.

Please change the Radiation Safety Committee Chairperson for this license from Brad Fedorchak to Dan Rader. Mr. Rader is assuming the responsibilities of the Site Responsible Care Leader for the Dow Michigan Operations site from Mr. Fedorchak and will be taking the responsibilities of Radiation Safety Committee Chairperson.

Mr. Rader has extensive leadership experience, with a combined 24 years of experience at Dow Chemical, including Production Leadership and Project Management roles in Manufacturing and Engineering as well as roles in EH&S and Quality Performance. From 2000 until 2006, he served as President of DHCompounding, a previous 50/50 joint venture between Dow and PolyOne Corporation. His most recent assignment was as Director of Dow's EH&S Safety Expertise Centers, which included responsibility for the Industrial Hygiene, Personal Safety, EH&S Systems Services, EH&S Learning/Training and Improvement Expertise Centers.

Mr. Rader is not a technical expert in the field of radiation safety and has little direct experience in working with radioactive material. However, his knowledge in the fields of chemical safety, personal safety, process safety, and environmental safety gives him a strong background in risk management. The site Radiation Safety Officer will advise the Chair on technical issues, as necessary, to ensure that the Chair is able to appropriately direct the Committee.

Thank you for your assistance with this matter. If you have any questions, please contact me at (989) 636-1440.

Sincerely,

James R. Weldy, CHP
Radiation Safety Officer

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g. jewelry, precious metals, negotiable instruments and other items listed in our ServiceGuide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
