Mr. Warren -

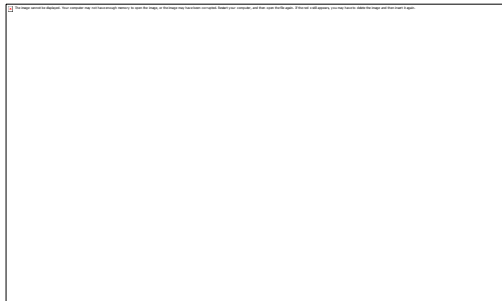

Per our recent inspection and follow-up conversations, attached is a PDF of Meeting Minutes and a photo of the cable and lock that we have incorporated into our nuclear gauge field storage policy and procedure. All authorized users attended the meeting and have received a copy of this documentation for their records.

With this new policy and procedure in place, I intend to lift the imposed ban on transport and field use of our nuclear gauges effective February 15, 2010.

Thank you for your assistance in this matter. Please let me know if you have any further concerns.

Regards,

Susan Mueller, RSO
