Mr. Allen Hsu
HF Controls Corporation
1624 West Crosby Road
Suite 124
Carrollton, TX 75006

SUBJECT: AUDIT REPORT REGARDING THE HFC-6000 SAFETY SYSTEM TOPICAL
REPORT

Dear Mr. Hsu:

By letter dated March 5, 2008 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML080780169), as supplemented by letters dated November 15, 2007 (ADAM Accession No. ML073390048) and January 16, 2009 (ADAMS Accession No. ML090710918), Doosan HF Controls Corporation (HFC) requested approval by the U.S. Nuclear Regulatory Commission (NRC) for the "HFC-6000 Safety System Topical Report," document number PP901-000-01, Rev. C (ADAMS Accession No. ML080780170).

The staff visited the HFC facility in Carrollton Texas on December 16-18, 2009, to perform a thread audit of the HFC-6000 topical report. The purpose of the audit was to determine if the life cycle processes used, and the outputs of those processes, resulted in a system (the HFC-6000) which will meet regulatory requirements. The audit plan, audit report, and a detailed audit record for this visit are enclosed.

If you have any questions, please contact me at 301-415-4053 or by e-mail at Jonathan.Rowley@nrc.gov.
