Subject: Californium-252 gauges
Attachments: Troxler 3242.pdf

Mr. Schmidt:

I need more information on the two Troxler Model 3242 containing Californium-252 in order for me to know how to license it. Please look at the gauge radiation labels in the back and/or the right side of the device (see attached diagram). The use of either of these terms should be written on the labels: "general license regulations" or "specific license regulations". For the two devices, let me know which of these two terms are used. Thank you.

Roberto Torres
