Subject: Transnuclear, Inc. (TN) Application for the TN-40 Transportation Packaging for Spent Fuel, Revision 6, Docket No. 71-9313, TAC No. L24106

Based on recent discussions with the NRC Staff, changes have been made to the Chapter 5 shielding portion of the TN-40 Transportation Application Safety Analysis Report (SAR), with an associated change to SAR Chapter 1 as well. The changed SAR pages are provided herein as Enclosures 2 and 3, for the proprietary and non-proprietary SAR versions, respectively. The only difference between the replacement SAR pages for the proprietary and non-proprietary SAR versions is the SAR cover page. Enclosure 1 provides instructions for SAR page removal and insertion.

Should the NRC staff require additional information to support review of this application, please do not hesitate to contact Mr. Donis Shaw at 410-910-6878 or me at 410-910-6881.

Sincerely,

Jayant Bondre, PhD
Vice President - Engineering

cc: Meraj Rahimi (NRC SFST) (8 copies of this cover letter and Enclosures 1 and 2, provided in a separate mailing)

Enclosures:

1. SAR Page Replacement Instructions
2. Changed Pages for the TN-40 Application Safety Analysis Report, Revision 6, Proprietary version
3. Changed Pages for the TN-40 Application Safety Analysis Report, Revision 6, Non-proprietary version
