

# U.S. NUCLEAR REGULATORY COMMISSION

## TELEPHONE CONVERSATION RECORD

**Date:** April 1, 2010

**Time:** 09:33 and 13:40

**Mail Control or Report No(s).** 144441 **License No(s).** 47-15501-01 **Docket No(s).** 030-09218

**Name of Licensee:** City Hospital

**Name of Participant(s):** Sheila Hedden, Sherry Poffenberger, Nuclear Medicine Staff  
Steven R. Courtemanche, Health Physicist NRC RI

**Telephone No.** 304-264-1322, 610-337-5075

**Subject:** Additional Information for License Amendment

(NOTE: This will be used as the Documents Title in ADAMS)

09:33 Ms. Hedden called and left a message on my voice-mail. She stated that the licensee had received a letter from Elizabeth Ullrich requesting information concerning what isotopes were used at the facility under 10 CFR 31.11. She was aware of only having used T3 and T4 kits many years ago.

13:40 I returned the call and spoke with Ms. Poffenberger. She stated that Ms. Hedden would likely not be in the office until April 11<sup>th</sup>. Ms. Poffenberger stated she knew of the reason for the phone call and could pass on the message. I told her that licensed material authorized by 10 CFR 31.11 could be in the form of many different isotopes. The Commission wants the licensee to perform due diligence and determine what types of RIA kits were used in the past. If they were all T3 and T4 RIA kits using I-125, then the licensee should inform us in writing of that fact. The licensee should also indicate when the last use of licensed material occurred for each isotope. Ms. Poffenberger stated that she would pass the information along and that a response should not take more than 30 days.

**Action Required: Place in ADAMS and Licensing package for Elizabeth Ullrich**
