**SUBJECT: ACKNOWLEDGMENT OF DISPUTED VIOLATION - DRESDEN NUCLEAR
POWER STATION NRC INSPECTION REPORT 05000237/2009-005;
05000249/2009-005**

Dear Mr. Pardee:

This letter acknowledges your letter to the U. S. Nuclear Regulatory Commission (NRC) dated March 12, 2010, which provided a response to our inspection report issued on February 10, 2010, concerning activities conducted at your Dresden Nuclear Power Station facility. The letter contested one of the Non-Cited Violations (NCVs) contained in the inspection report, namely NCV 05000237/2009005-03, associated with "Preconditioning the Unit 2 Emergency Diesel Generator Prior to Performing Technical Specification Surveillance Requirements."

We are currently reviewing your basis for contesting the NCV. The NRC seeks to be thorough and timely in the review of licensee responses to NCVs. Accordingly, we will inform you as soon as we complete our evaluation.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Mark A. Ring, Chief
Branch 1
Division of Reactor Projects
