Subject: RAI (144391) dated 4/1/10

(NOTE: This will be used as the Documents Title in ADAMS)

In the letter dated 1/20/10, LMH requested the reactivation of their prostate brachytherapy program. Authorization for the prostate program was removed from the license as part of Amendment 73 dated 2/24/04. During the time when the prostate program was active, John Sorrentino, M.D. was the RSO for the licensee and was aware of the regulatory, safety and emergency issues associated with the sealed source program. Based on the information provided in the 1/20/10 I need the following additional information:

1. For Abhijit Ajit Patel, M.D. – A preceptor attestation statement confirming that Dr. Patel received the training described in 10 CFR 35.490(a)(1) and has achieved a level of competency sufficient to function independently as an authorized user of manual brachytherapy sources for the medical uses authorized under § 35.400.
2. A description of where the Prostate Brachytherapy Hot Lab is located within the facility.

Action Required: Wait for additional information and complete the amendment
