The licensee had requested an address change and an exemption to part 20 Appendix B (use ICRP 68 values instead of ICRP 30 values). I informed the licensee the exemption request would need to be forwarded to NRC HQ and may take considerable time. I further explained that the exemption request would require a greater level of information provided, including a detailed analysis. I suggested the licensee send in a letter stating that they just wanted the address change for this amendment and would resubmit an amendment request for the exemption at a future date.
