

September 10, 1970

NOTE TO FILES - DOCKET NO. 70-687  
50-54

A Mr. Conners of Union Carbide, Tuxedo, New York, called regarding our letter of September 4, in connection with his company's failure to file a June 30 Material Status Report. He said that all material possessed by them is leased material and accordingly he thought only March and September reports were required. I explained to Mr. Conners that a June 30 and December 31 report is required also for all material possessed under license, whether it is leased or privately owned. Mr. Conners said that he would promptly complete the required form.
