Tuxedo, New York 10987

Attention: Mr. C. J. Konnerth
Health Physics Supervisor

Gentlemen:

This refers to your application dated January 3, 1969, requesting renewal of your Special Nuclear Material License No. SNM-639.

In our letter dated December 4, 1968, we requested that you submit a consolidated application for renewal of License No. SNM-639. By this we meant for you to submit an application with sufficient detail regarding your operations, facilities, equipment and procedures to enable us to evaluate the application without the need to refer to your previous applications. The referenced application provided a consolidated description of the operations to be performed, however, you provided very little information regarding your facilities, equipment and procedures. Accordingly, it is requested that you resubmit your application for renewal with sufficient information regarding your operations, equipment, facilities and procedures to enable us to determine the adequacy of your application without reference to previous applications.

In order to allow you sufficient time to prepare this application, the expiration date for License No. SNM-639 is hereby extended to April 30, 1969.

If you have any questions regarding this matter, please contact us.

Sincerely,

Robert L. Layfield
Source & Special Nuclear Materials Branch
Division of Materials Licensing
