SUBJECT: NRC PARTICIPATION IN THE OCONEE AUGUST 2010 EMERGENCY
PREPAREDNESS EXERCISE

Dear Mr. Baxter:

The U.S. Nuclear Regulatory Commission routinely participates in licensees' emergency preparedness exercises to ensure that the NRC's Incident Response capabilities are effectively maintained and to provide licensees an opportunity to exercise the interface with the NRC that may occur during the response to an incident at their sites. The purpose of this letter is to inform you of our intent to participate in your Oconee Emergency Preparedness Exercise that is scheduled to occur on August 3, 2010, which was previously discussed with Rodney Brown and Tina Kuhr of the Duke Energy staff. The extent of participation will only involve regional response staff.

The Regional response will involve activating our Region II Incident Response Center and sending an NRC Site Team, including our resident inspectors, to your facilities. Additionally, if requested by the state of South Carolina, we will have an NRC participant at the state Emergency Operations Center. If our scope of participation changes, we will contact your emergency preparedness staff to discuss the changes. We will also be coordinating with your staff to schedule pre-exercise outreach discussions and meetings to address any questions or concerns related to our participation.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions concerning our participation, please contact Steve Rudisail at (404) 997-4512.

Sincerely,

/RA/
