Union Carbide Corporation  
P. O. Box 324  
Tuxedo, New York 10987

Attention: Mr. C. J. Konnerth  
Health Physics Supervisor

SUBJECT: NOTICE OF LICENSE EXPIRATION

Notice is given that Special Nuclear Material License No. SNM-639 expires on January 31, 1969.

If you desire to continue your program using special nuclear material(s), an application for renewal of the license should be filed with this office pursuant to Title 10, Code of Federal Regulations, Part 70, Section 70.33. The application should be in letter form and seven copies submitted.

The initial application for this license was filed more than five years ago and since that time there have been several amendments to the license. Accordingly, you are hereby requested to file a new application, complete in itself, without reference to previous applications. It is to your advantage to file such an application at least thirty (30) days before the expiration date of your existing license. Your program will then be covered by your existing license until action is taken on your application for license renewal (Section 70.33(b)). If an application is received less than 30 days prior to the expiration date of your license and cannot be processed before your existing license expires, this could result in your possessing special nuclear material without a valid license.

If you do not wish to renew your license, please complete the enclosed form, "Certification of Status of Special Nuclear Material Activities Under United States Atomic Energy Commission Special Nuclear Material License No.- 639", and return it to this office.

If you have obtained an amendment which has extended the expiration date of the above license or if a new license has been issued which supersedes the above license, please disregard this notice.

This notice of your license expiration is sent to you for your convenience and it should not be interpreted that similar notices will be sent in the future. The responsibility for timely submission of an application for license renewal remains with the licensee.
