Gentlemen:

This refers to our letter dated July 26, 1978 which transmitted revised License Condition 6.2 and a new License Condition 6.5 to the Amendment MPP-2 to your License No. SNM-639. As indicated in that letter, the revised reporting requirements were effective immediately. However, when a problem developed in the implementation, you were advised by telephone on July 31, 1978 by Mr. J. Blaylock of my staff to disregard the referenced letter and report July's discards in accordance with the provisions of the previous License Condition 6.2.

The purpose of this letter is to advise you that implementation of the revised reporting requirements will not be possible until a few minor problems are resolved. Therefore, you should continue to disregard the July 26, 1978 letter and report measured discards and Inventory Differences in accordance with the previous License Condition 6.2 until further notice.

Sincerely,

(S)

James G. Partlow, Chief
Material Control Licensing Branch
Division of Safeguards
