This is in response to your telephonic request of November 5, 1980 requesting a change to the spent fuel route approved by our letters of March 3, 1980 and October 30, 1980.

Your proposed change to use US-30 as an alternate to I-70/76 has been reviewed and accordingly approved. Please annotate your spent fuel route survey to reflect this change.

This approval does not guarantee that there will be no local or state legislation applicable to the route that restricts or prohibits the movement of radioactive material.

Sincerely,

"Original Signed by G. W. McCorkle"

George W. McCorkle, Chief
Physical Security Licensing Branch
Division of Safeguards, NMSS
