**Subject:** DCD Tank Failure Analysis

Mike and Ngola,

I've received a notification from our R-COLA Licensing group that some of the NRC reviewers have been asking questions and giving issues on the DCD. I would like those issues identified and presented to MHI rather than Luminant, as appropriate.

The detail I have is that the questions are coming from ORNL contracted reviewers, under someone name Nebu (sp?). Topics being fuel failure percentage for the DCD Tank Failure Analysis, dilution volume and travel time. There may be other issues, but I would like them to be gathered on the NRC side and presented appropriately. I'm not sure if these questions are coming from Chapter 2 or 11.

My understanding is that there was a previous DCD RAI response that may have created this confusion. Once the issues are identified we are ready and willing to help clear up the confusion.

Ryan Sprengel
