Dear Dr. Rodriguez Mercado:

This is in reference to your letter dated January 27, 2010 requesting to amend Nuclear Regulatory Commission License No. 52-01946-07. In order to continue our review, we need the following additional information:

In order for material to be removed from the license, a licensee should provide documentation that another licensee has accepted the material. Please provide evidence that the "Oncology Hospital" received the linear accelerator and that the hospital was licensed for this material. Please provide the legal name of the "Oncology Hospital" and the hospital's address.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 144514. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5303.
